

Basic Geometrical ideas: Worksheet -9

1. The representation of a circle with centre P and radius 5 cm is _____
2. If the radii of two circles are equal, then the circles are called _____
3. Diameter passes through _____ of the circle
4. In a circle 1 diameter = _____ radii
5. A part of a circle is called _____
6. _____ divides the circle into two semi circles.
7. The union of two radii and one arc is called _____
8. Circumference of the circle _____ times of its diameter
9. If 'r' is radius of a circle then its circumference: _____
10. The approximate value of π _____
