## Visualizing Solid Shapes: Worksheet -2

1. One real life example of cube	
2. One real life example of cuboid	

3. A cuboid has \_\_\_\_\_ rectangular faces.

4. A cylinder has \_\_\_\_\_edges \_\_\_\_faces.

5. A triangular prism has \_\_\_\_\_faces and \_\_\_\_edges.

6. By combining unlimited number of points ,we can get a \_\_\_\_\_

7. We can extend a line in \_\_\_\_\_

8. One real life example of cylinder \_\_\_\_\_

9. We denote line by the symbol \_\_\_\_\_

10. One real life example of Sphere \_\_\_\_\_

11. One real life example of Cone \_\_\_\_\_

12. A square has \_\_\_\_sides.

13. One real life example of Pyramid \_\_\_\_\_\_

14. A triangle has \_\_\_\_\_corners or vertices.

15. A triangle Pyramid has \_\_\_\_\_\_ faces and \_\_\_\_\_ edges

16. A circle has \_\_\_\_\_corners or vertices.

17. A sphere is a \_\_\_\_\_ figure.

18. A cube has \_\_\_\_\_\_faces and \_\_\_\_\_edges.

19. A rectangle has \_\_\_\_\_edges or sides.

20. A cuboid has \_\_\_\_\_edges and \_\_\_\_\_ faces.
